ABOUT US

Star Ceramics Limited is a Bangladesh - Lebanon joint venture company situated along the highway to Sylhet extending an area of 150,000 square meters. Star Ceramics Limited is the largest manufacturer of ceramic / vitrified tiles in Bangladesh. It has an annual aggregate production capacity of 7.3 million sq. meters of wall and floor tiles.

We are a company that has been at the forefront of innovation. Innovative and forward-looking, we have many firsts to our name - pioneers in the manufacturing of Digital Printed tiles in Bangladesh, the first to introduce Nano Technology, Launched the biggest tiles such as 60X90cm, 60x120cm. Star Ceramics also introduced new size in the market such as 20X50cm, 33X50cm, & 50X50cm. Quality and durability, combined with the aesthetics of design and color has transformed us into experts that offer extraordinary wall and floor tiling.

The manufacturing units are equipped with cutting edge digital technology. Intense automation, robotic car application and a less chance for human error are just few reasons why Star Ceramics remains at the top in the industry. European technology, research, design or quality, Star Ceramics has set its sight on all these factors adopting new production techniques in order to enhance the quality of its products.

PRODUCT MIX

Product	Description	Size
Wall Tiles	Glazed ceramic red & white body tiles	30 cm x 60 cm
		30 cm x 50 cm
	Matt ceramic red body tiles	20 cm x 30 cm
Floor Tiles	Gres porcellanato (Glazed Vitrified, homogeneous salt & pepper, rustic)	40 cm x 40 cm
	Mirror polish (Lappato, glazed vitrified classic & nano crystal)	60 cm x 120 cm 60 cm x 60 cm

Star Ceramics is accredited with ISO 9001, ISO 14001 and OHSAS 18001 for quality, environment and occupational health and safety management systems.

Our Sanitary ware plant has started its commercial production with the initial aggregate capacity of 0.5 million pieces per year in several most modern designs to suite all tastes and segments of market.

IMPORTANT NOTES

Tiles Fixing

1. Tiles carton must be handled with care and must be stored vertically to avoid breakage & scratch
2. Tiles should be immersed in clean water for 10-15 minutes before fixing
3. At least 3-5 mm gap should be kept between wall & floor tiles by using spacer / clip
4. Always use rubber hammer to knock the tiles for proper laying
5. Grout should be evenly spread during fixing of wall & floor tiles

ATTENTION

All fired ceramic tiles are subject to size, shape, shade, and weight variation. Mixing of lime with cement or careless use of rich mix will lead to wall/floor tiles failure.

Sanitaryware Installation

1. Ceramic Sanitaryware must be checked before installation, fitting must be made according to the installation instruction
2. The surface of the wall or floor must be flat where the sanitaryware will be mounted
3. Avoid fixing the sanitaryware with glue or any other similar materials. Use quality white cement
4. We recommend hiring professional plumber for installation of sanitaryware

ATTENTION

All fired ceramic sanitaryware are subject to shape and shade variation, before installing please check the product (flushing unit).
